FullStack Developer

I started my career in June 2018 and worked on various full-stack projects since then. I am currently living in Tokyo with my family. I usually spend my free time with my family, studying code, watching movies or at the jiu-jitsu club.

Experience

FullStack Developer - Rooking Inc. 2018 - present

Barista 2013 ~ 2017 Tokyo (Japan) and Melbourne (Australia)
Project Manager - Publicis Paris (France) 2010 – 2012

Coordinate projects for Renault-Nissan's communication (automobile) at each car launch. Manage the budget, the schedule and the communication between designers, production and client. Each project consisted in a movie production, a photo shoot and papers production (ex: product book, magazine, etc.) and/or updating existing content.

Internships Grenoble (France) 2009 – 2010
Organize amateur and professional events related to the surf, snow, skate area.
